### TO WHOM IT MAY CONCERN

This is to certify that the supply of timber and timber products listed in the species table below are being harvested according to Fiji's harvesting policies and in accordance to the criteria under the International Timber Trade Organization.

	Species		(cont'd)
1.	Fiji Mahogany	8.	Dakua salusalu
2.	Kaudamu	9.	Mavota
3.	Rosawa	10.	Vesi
4.	Yasiyasi	11.	Damanu
5.	Dakua makadre	12.	Rosarosa
6.	Kauvula	13.	Yaka
7.	Sacau	14.	Sarosaro

Fiji's Mahogany, (*Swietenia Macrophylla King*), a plantation grown specie is a renewable resource and is harvested in a manner that ensures sustainability for years to come.

All other requirements regarding the payment of Royalties and Government levies are being met before any removal is done.

Yours faithfully,

Taniela. Whippy  
Forester- Timber Inspector  
For: Principal Utilization Officer
